NYBG features learning spaces designed for kids that offer daily activities in nature play, plant science, and gardening.

EDIBLE ACADEMY

Programs at the Edible Academy reinforce important connections among plants, science, nutrition, and the benefits of a healthful lifestyle. The three-acre campus hosts year-round programming in a LEED Gold-certified classroom building featuring green technology, a teaching greenhouse, a demonstration kitchen and technology lab, and organic vegetable gardens.

EVERETT CHILDREN'S ADVENTURE GARDEN

Programs in the Everett Children's Adventure Garden encourage children to actively investigate science and nature in a 12-acre landscape that features a series of lush environments, including a pond, woodland, and meadow. The indoor Discovery Center and teaching greenhouse are filled with plants, books, toys, and activities that enhance children's discoveries about the natural world.

CHILDREN'S GARDENING PROGRAM

Sprouts Program (Ages 3–5)

Accompanied by a parent or guardian, children experience nature up close. Sprouts are introduced to the fun of planting and harvesting in the garden.
